SUMMARY

Software Developer with 1 year of experience in backend development, API security, SQL query optimization and Python automations. Experienced in building scalable web applications and database-driven systems using Python, Django, FastAPI, SQL, and REST APIs delivering production-ready solutions.

EXPERIENCE

Safertek IT Solutions

Sep. 2025 – June 2026

Implementation Developer (*Certificate*)

- Developed a **transaction-safe** data mapping feature using Django to dynamically pass system variables between two different functions, ensuring complete **data consistency**.
- Automated various operations related to databases using Python, SQLAlchemy and Regex libraries to fetch and manage stored procedures, improving **work efficiency** by 80%.
- Developed Python-based integrations with Bold Reports **REST APIs** to upload, retrieve RDL files and parse the XML tree for extracting datasets and report queries.

Safertek IT Solutions

Nov. 2024 – Aug. 2025

Backend Developer Intern

- Implemented SQL stored procedures, designed reports and integrated with the application to address client requirements following **Agile Methodology**.
- Migrated stored procedures from **MS SQL Server** to **MariaDB** and modified the tables which had schema changes by interacting closely with functionality team.
- Improved database query performance by up to 90% through query optimization and strategic indexing, reducing execution time from approximately **30 seconds** to **2-3 seconds**.

PROJECTS

Bus Reservation System | Python, Django, MySQL, AWS RDS, Vercel

[🔗 Link](#)

- Developed an **end-to-end** bus reservation system with user authentication, profile management, bus searching, booking, cancellation and booking history.
- Improved the **performance** of the application by eliminating N+1 query issues and implemented seat allocation using **database transactions** and unique constraints to prevent duplicate bookings during concurrent requests.
- Deployed the application on **Vercel** with the MySQL database hosted on **AWS RDS**, enabling cloud-based access and persistent data storage.

VisiOCR System | Python, Django, MySQL, OpenCV, Tesseract

[🔗 Link](#)

- Developed an OCR-based web application to extract user information from uploaded image of UIDAI cards such as Aadhaar/PAN card and create a visitor pass.
- Handled **large image uploads** efficiently by processing them in chunks and thereby reducing memory consumption and improving scalability.
- Improved OCR accuracy by **90%** using image **preprocessing techniques** like grayscale conversion, thresholding etc.
- Integrated QR code generation for visitor passes and implemented QR code validation for secure visitor verification.

URL Shortener Service | Python, FastAPI, SQLAlchemy ORM

[🔗 Link](#)

- Built a URL shortener web application with a dashboard UI showing total URLs, total clicks and view per-url analytics.
- Designed REST APIs to perform different CRUD operations following the best practices and tested the endpoints using Postman.
- Generated unique short codes using **Base62 encoding** technique and implemented concurrent URL redirection using **asynchronous threadpool**.

EDUCATION

SRM AP University

2021 – 2025

Bachelor of Technology in Computer Science and Engineering

CGPA: 9.08

- Coursework:** Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering, Machine Learning
- Research:** Sentiment Analysis on Twitter Dataset. (Under Dr.Sanjay Kumar, Assistant Professor)

SKILLS

Programming Languages: C, C++, Python, Java, SQL, HTML, CSS, JS

Frameworks: Django, FastAPI, NodeJS, ReactJS

Databases: MySQL, MS SQL Server, MariaDB, PostgreSQL, MongoDB

DevOps & Tools: Git, Github, CI/CD, Docker, VS Code, Bold Reports, PowerBI

Machine Learning: Scikit-learn, Numpy, Pandas, Supervised Learning, NLP, Prompt Engineering

AI Tools: ChatGPT, Gemini, Github Copilot, Codex

Soft skills: Problem-solving and analytical skills, communication skills, team work

CERTIFICATIONS

SQL Skill Certificate | *HackerRank*

Programming Using Python | *Infosys Springboard*

Django Application Development | *Coursera (Authorized by IBM)*

The Power of Machine Learning | *Coursera (Authorized by SAS)*

ACHIEVEMENTS

</> Competitive Programming: Solved 250+ coding problems on LeetCode, strengthening problem-solving skills and proficiency in Data Structures & Algorithms. [*profile*](#)
